BSW Mark III

Button Wrapping & Knotting Machine

**Better Shanks
Better Garments**

AMF REECE
Better Ideas, Better Made

Application of the BSW-Mark III button shank wrapper includes suit jackets, outdoor or any garment requiring a shank button.

Features

- Uses normal thread which eliminates color matching issues as well as the need to buy expensive, special thread.
- Suitable for any types and sizes of buttons.
- Quick set up by user - friendly LCD monitor.
- Patented thread trimming with a knife.
- Tight knotting preventing the button from being detached.
- No needle or bobbin required.
- Simple adjustment between flat and shank buttons on the control panel.
- Number of wraps and knots per shank can be programmed.
- Productivity of 4,000 buttons per 8-hour shift on average.
